

Springerville Town Council
Work Session Minutes
May 19, 2004

Present: Mayor Kay Dyson, Vice-Mayor Mary Nedrow, Mark Baca, Scott Cray and Pete Hunt

Staff: Kurt Hassler Town Manager, Val Cordova Town Clerk, Steve West Chief of Police and Tom Malone Public Works Director

Public: Betty Amator

1. Mayor Dyson called the meeting to order at 5:03pm.
2. Public participation - None
3. Mapping Presentation: Hear a presentation from the town manager regarding progress made on mapping of the town.

Mr. Hassler gave a presentation on all of the mapping he has completed with the information from Jim Muth and information purchased from the Town of Eagar.

He explained that he is working on a base line map of all the infrastructure of the water and sewer lines, hydrants, and right of ways and will be mapping all of the manholes as well.

This mapping system will help the public works department but will also give planning and zoning better information in relation to boundaries as well. The mapping is not yet complete but it gives us a place to start. The public works department will be working on noting all the changes on hard copies that need to be made to the mapping as they find them.

He explained that the idea behind this is to get everything set up and move right into it and not have to go back and redo everything.

Mr. Hassler said he would be training Kim to at least be able to print out the maps. Depending on how well she does maybe train her to make the changes. Any engineering firm should be able to do this. The mapping done is pretty complete so far and expects to have the sewer map completed by the end of next week. Then they can put together a ten year plan for the sewer system.

The council said they would like to see capital improvements on this map.

He advised them that mapping the water system gives the town an inventory of every hydrant, valve, line and well. He is doing research to see if this will help with our ISO rating.

4. Adjournment:

Motion by Mark Baca/Mary Nedrow to adjourn the meeting.
